Next FaceHacker v1.0 2012 (hack the face) () - Full. The Incredible Hulk. The Big Lebowski. I am not sure, but I think that the facehacker.exe only works on Ubuntu 12.04 Additional info: Windows 10 OS: Windows 10 Home Edition 64-bit A: There are currently a couple of face changers Free - Virtualface - Fully GUI based. Doesn't have an install size either. Very easy to use. Free - Lazarus - Has an install size but the GUI has not been updated in a long time. Free - FakeHacker - Uses the built in Windows scipting tools in the Windows CSC. Also you may want to take a look at Windows Hacking. facehacker v1.0 2012 You will need to use the windows scipting tools to do this with CSC (Windows Common Scripting). I believe FakeHacker is how they are programming the CSC to use to do this. Long time no post, huh? I've been hard at work on numerous projects (as have most of you, I'm sure) but I've been pretty occupied, and my free time has been utilized in other ways. I've had a lot of work and focus put into the fanfiction project I'm currently editing, which I highly recommend for anyone looking for a really neat, lighthearted, and quick project. I'm also working on a few other projects that I'm not really ready to share anything about just yet. That's all for now, but I do have something to share. I've been taking a few breaks from writing and instead have been focused on practicing my figure skating. Though my skating has been steadily improving, with most of the pain I'm experiencing while walking being gone, there's still a whole lot more I need to do and work on. Now that the weather has warmed up, though, I'm planning on getting a lot more practice in. We'll see how things turn out!We knew from pretty much the moment we watched The Bachelorette it would be a major problem to have too much overlap. But then Ashley Iaconetti announced that she would be going on The Bachelor on Jan. 7, leading to some ... major ... drama... between two of her
