

Store House Crack+ With Keygen

Add and organize electronic components by using a handy software. The app lets you enter personal items, like TVs, computers, stereos, cassettes, radios, as well as family heirloom and other useful things. Store House is cross-platform compatible, meaning you can install it for both iOS and Android devices. In addition, you can make a copy of your list using the cloud-storage. It's possible to find additional info from the app's About tab. Create and manage your "inventory" The following is a list of operations and features that you can find within Store House: Add a gadget and description: Lets you add a model, make, manufacturer and serial number, along with a description and category. You can also add a picture, store expense and insurance info and add a tag, so you can instantly re-order the asset in a few clicks. Enter info about your household's assets: You can make an in-depth description about TVs, microwaves, and other gadgets. Add insurance info: In the case that you have to replace a piece of your stuff, the app lets you give your information to a potential buyer. It's possible to save the list on your computer or add insurance info using a PDF file. QuickTime videos and MP3 sounds: You can add a slide show or playlist in the case that you want to present your asset in an entertaining way. In addition, you have the choice to add sounds that may come with your TV, stereo or other gadgets. View the list in a compact mode: In the "list" tab, you'll find a list of items, with descriptive info, pictures and a search option. You can also sort the list by name, date, make, model, cost, location or insurance type. Create a backup: The app comes with a backup feature that allows you to make a copy of your assets in the cloud. Print the list: In the "list" tab, you can view the list in a compact mode, go through images and choose to print it. Navigate through the list with ease: Drag and drop the items to reorder, remove or order them in alphabetical or by category. Pros: The app lets you enter personal items, such as TVs, microwaves, stereo, cassettes, radios, family heirloom and other useful things. You can add info about the asset's description, manufacturer, model, price and location, date and insurance policy

Store House Crack

Store House app Description Ads Description Find more apps like this in "Apps" section Find more apps like this in "Apps" section Homepage : Last review date: June 25th, 2015 Version: 2.3.3.57 Version: 2.3.3.57Requires Android: Android 1.6 and upSize: 7.9MB Store House is a feature-rich and handy piece of software created to help you keep track of valuable electronic items, like LCDs, radios, DVDs, hard drives, as well as other household assets (stove, microwave, DVD/CD collection, books). Enter details about your personal house gadgets The interface is self-explanatory and tidy, making the process of adding new entries, easy. The layout is structured into five separate tabs: "Main", "List", "Photos", "General" and "Find". Fill in the item's general info You have the choice to import an existing file from the drive or make a new one from scratch.
