She was the daughter of Sir John Montague, a knight-consort, and his first wife Anne Clifford, who was the daughter of Lord Clifford and Lady Mary Clifford, the sister of the Earl of Cumberland. Diana Montague was a descendant of the house of Clifford. Career Diana was one of the famous "nine sisters" of the later 18th century and the first recorded member of the family to publish satires and gossip stories in print. However, some historians claim that she should be included in the group of 17th century satirists, who included Rachel Speght and Mary Browne. The head of the Montague family satires has been attributed to Lady Montague. In 1717 she was the publisher of a scandalous book, The Scandal of the Court of Wits, a "Reflector and Index of Manners" which detailed the rampant "scandalous facts" and "scandalous opinions" about the court, while listing the "venerable names" of those involved. In 1717 she published and dedicated to Robert Harley, the Viscountess Cobham, a copy of the Scandal of the Court of Wits. In a further copy of this book she dedicated to another noblewoman, the Countess of Mar, in 1719, she tells us that "the Lady Viscountess Cobham" wrote it, but this may refer to her mother, who was married to the Viscountess Cobham, Lady Diana Clifford. According to John Hodgson, Lady Diana was "a woman of independent fortune and some literary abilities," and there is no doubt that she was an important figure in London life, but her identity and reason for writing are af5dca3d97
