[Updated]

We are looking for a Mac developer that can help us improve the existing Mac application. We are looking to replace some of the complicated dialogs and graphical elements with some new designs. A graphic designer would be helpful for this project. We would also like to add video elements to the interface and many other small features. The Mac application must be able to run on both Mac OS X 10.6 Snow Leopard and Mac OS X 10.7 Lion. The application should have the following features: - Account. One main screen where you can add and track your income and expenses. - Transaction. A simple screen that will let you view your transactions. A more detailed screen could be added if needed. - Report. A screen where you can view your monthly income and expense reports. - ... ... Hi there. I'm looking for a simple iPhone app that will allow me to accept payment and invoices. The app is going to be self-explanatory but the following features are required; - Paid updates - Full refunds (within 24 hours) - Payment methods are required - credit card, Paypal and visa card. - With the ability to process a range of different invoice styles. - The ability to take images of different types of invoices to send to the customer. - Data entry is required for the front end of the app. App should be able to send emails to a customer with invoices, so if there are any other areas which you believe are important, please let me know. All other mobile apps should be able to be developed based on the standard iOS SDK. The App will be released on the Apple App Store and therefore it should include the standard Apple sign-in. If ...Fully functional business app that helps small businesses set up, manage, and grow their own online business. Have access to their full business (name, number, & email address) and can make custom fields and bookkeeping fields. No access to their financials. Product line: subscriptions, products, services, and products for individuals. We are currently looking to add a biz-to-biz platform to the app. Features ✓ Import from an existing business or one of several templates ✓ Setup the business name, email, the initial set of "Product-lines" ✓ Simple drop down menus for a description of the I need a registration page for a new membership site and I need to know 2edc1e01e8

WorldAcct.com Accounting Software (5-Users) Crack+ Incl Product Key Free X64

Create and maintain your own business accounting software with this powerful yet easy to use software. With A.W.W. Accounting Software you can manage your finances and perform various accounting operations, all in one place. The software features a comprehensive interface with various modules that will help you mange your business activity. It also comes with a very detailed and advanced report management tools you will ever see in this kind of applications. Description: Print a check, register a check, and sign or accept a check or an authorization to pay. You may only print the information on the top of the check and you may not print more than the amount of money you are allowed to print. You may print the name of the payer, the check number, and the account to which the check is payable. You may not print the account to which you have authorized the check to be paid. Description: After you have registered a check in your check register, enter the amount and the item to which it belongs. Enter the amount in dollars and cents or in units. You may use a negative number to signify an amount less than 0. Enter the item as a description. Enter the date of the transaction. Description: With this program you can create invoices, receipts, purchase orders, time sheets, and other forms. You can print or type these forms, or you can save the form to a file. You can enter, delete, or modify the items and their amounts. You can record the dates and the customers and other parties involved. Description: With this program you can register or print cash receipts, enter information about the customers and vendors and about the goods sold, create and print cash register tapes, and make simple cash transactions. You can make transactions in U.S. dollars or in a foreign currency. You may enter the transactions in the currency you are using. Description: With this program you can work with accounting accounts for your business. The program gives you three ways to enter transactions. You can create transactions by entering the transactions directly, from a list, or from a file. Description: With this program you can generate reports that will help you monitor your business's financial condition. You can print the information in a variety of formats, or you can save the report to a file. You may create and print separate reports for each type of transaction. Description: With this program you can create and print invo
